IMPORT DATA USING TRANSFORM MAPS (SPREADSHEET)

Phase 7: Project Documentation

Objective: Document the complete implementation, configuration, testing results and reporting activities so that the project workflow can be understood and repeated.

1. Project Description

- Document the purpose of importing structured employee data from an external spreadsheet into ServiceNow using Import Sets and Transform Maps.

2. Configuration Documentation

- Record the Employee Test table and its fields.
- Record the Employee Import table.
- Record the Sample Spreadsheet Import Transform Map.
- Record source-to-target field mapping.

3. Process Documentation

- Document spreadsheet preparation and Load Data steps.
- Document Transform execution and validation.
- Document Coalesce configuration and its purpose.

4. Testing Documentation

- Record the inserted, updated and ignored results from Transform History.
- Document the repeated import test and its observed result.

5. Reporting Documentation

- Document Employees by Department, Employees by Location and Employee List Report.
- Document the Employee Analytics Dashboards configuration and report placement.
